To the Teachers of Virginia.

The subject of education in all its phases is assuming an importance and awakening an interest throughout our State never before realized. Everywhere evidences exist of a deep, heartfelt concern on the part of our people with regard to the physical, moral, and literary training of the rising generation. Wise direction and wellthe best interests of the people and the State. It is from this standpoint that the Educational Association of Virginia, at its last session, held at Hollins Institute, appointed the undersigned committee to urge upon the teachers of all grades in our State the importance of more intimate association and more systematic cooperation, not only in the actual work of education, but in in pressing the public mind with proper views on educational questions. The committee beg, therefore, to present the following reflections and suggestions to the teachers of Virginia. The aim of the Association and desire of its members is to advance al. the true educational interests of the Siste. Both the present and the immediate future the cooperation of an intelligent public | York Express. opinion; no enlightened public opinion can subsist without being fostered by men who know what they want and have the courage of their convictions; and not even such men can hope to become a lasting force, save by organized, persistent effort. Then, fellow-teachers, let us show ourselves wor-

It is enough, perhaps, to mention two of the most obvious reasons for this assertion, each reason sufficient in itself; one is the presence as a political factor and an educational problem in our midst of more than half a million of negroes; the other is the

fact that in our present society the education of our children must depend more or the school and less on the home than ever both accounts are we teachers vitally in-

We repeat: We should act, and act to gether, as an Association. The lack of organized cooperation has always been one of the greatest sources of weakness in the development of the whole South. Let us have done with it. The "burning questions" of education, so deeply pondered elsewhere, demand most earnest thought and consultation at our hands also. In the front rank among them stands the subject of education for our Virginia women. What shall it be? Virginia society, as such, is less able than ever before to protect our women to the life struggle, and more

be given them. Again: Shall we have well-educated, thoroughly-trained teachers, or have our ranks full of incompetence and ignoranceignorance in a profession where ignorance is vice? And such questions abound. In the list of subjects for discussion at the approaching meeting of the Association will be found some of those questions from which this generation can in no wise escape. They are surring the world around us; we cannot remain unmoved. To that list, appended below, we invite your attention. And we beg you most earnestly not only to And we beg you most earnestly not only to read those questions, but to come to the meeting and discuss them. ARRANGEMENTS FOR THE STATE REGATTA OF TUESDAY NEXT.

The time fixed for the third annual regatta of the Virginia Association of Amateur Oarsmen is near at hand, and, judging from the extensive preparations that are being made, it is destined to be an event of unusual interest. A grand stand, with accommodations for 3,000 persons, is in process of erection, from which a good view of nearly the whole course can be had. In addition to this, the Association has secured the river front for a considerable distance above and below the brewery, from any part of which a good view of the races can be obtained. The Olympic Club have also secured the Brewery Park, which commands a splendid view of the course.

The following is the committee of arrangements: E. B. Thaw, chairman; R. H. Smith. Manly B. Curry, William P. Lee, and S. N. Carter. The committee have purchased prizes for the strangers' races, which are as follows: "Olympic shell-prize" for four-oared shells (outside of the Virginia Association) consists of four of the Virginia Association) consists of four of the Virginia Association) consists of four solid silver cups, worth \$100, to be pre-sented to the winning crew. For this the following clubs have entered crews: L'Hirondelles and Undines, of Baltimore; Potomacs, Columbias, and Analostans, of Washington. "Olympic single-scull prize" for single sculls, for strangers, solid silver cup, worth \$75. For this the following bave entered: William F. Roberts and Frank H. Barbaran, of the Potomac Club, Washington. "Olympic tub prize," open to all; prize, a silver tub. Other entries

The Association races will consist of the following: For four-oared gig race, with coxswain, prize French cup, value \$500, to be held by the winning crew until the next annual regatta, Rives Boat Club, of the University of Virginia, Appomattox, Virginia; Cockade City Boat Club, of Petersburg, Va.; Rappabannock Boat Club, of Fredericksburg, Va., and Olympic Rowing Club, of Richmond. There will also be a barge race and single scull race, under the auspices of the Association.

The Olympic boys are hard at work getting themselves in proper trim for the race. It is probable that all the crews will reach the city Saturday, for which provision has already been made. A large number of persons will be here from Baltimore, Washington, and from all parts of the State, and it may be safely conjectured that Richmond will be called on to accommodate a great number of visitors on tha

day.
The Regatta Association meets in this city Monday to determine upon the order of the races. The first racing begins at 4 o'clock in the evening.

THE MALE ORPHAN ASYLUM-ANNUAL EXAMINATION, &c.—The annual examina-tion of the boys at the Richmond Male Orphan Asylum took place vesterday afternoon in the presence of the Board of Managers. The exercises commenced at 4 o'clock and lasted about two hours, and consisted of an address of welcome by a boy of Mr. Anderson's class and also one of

Miss Sadie McRea's. There were exercises also in reading, dialogues, &c. The examination proper in geography arithmetic, and physical geography, spelling, &c., was most satisfactory, and elicited much applause from the audience. The examinations in "fractions" on the black board were highly gratifying to the Board On the conclusion of the examination Mr

R. P. Richardson, a long and well-tried that at the last annual meeting he had promised a gold medal to the best-behaved boy in the asylum, and upon the as on many similar occasions it was not so easy to determine the question as to the merits of the several aspirants, and Mr. George W. Sublett, a member of the Board, stated that at the next annual examination he would also present a medal to the "next

best" boy in the institute. The president of the asylum having stated that he hoped the teachers would give attention to correct reading, a thing not so difficult of attaining as some people imagine, and yet a most valuable and ; ing accomplishment, Mr. Thomas J. Todd, another member of the Board, said

at the next meeting present a medal to be best reader" in the asylum. George Smith who received the puze yesterday efferment, has a fine, frank, manly face, and it is hoped he will reflect

honor upon the asylum. Mr. Thomas D. Quarles, the wheel-hors of the asylum, concluded by expressing his hearty approval of the success of the teachers, and with a heart almost too full for utterance thanked God for such a noble institution in our midst, and regretted that the examination had not been held in the city, that the public might witness a spec tacle which had so gladdened and warmed

his own heart. It is more than probable that hereafter

these examinations will be held in the city est, great and small, in the city. THE STORM YESTERDAY .- Just before 2 o'clock yesterday the threatening storm-clouds which had been gathering during advocate, will appear as Joe Morgan, the the forenoon visited upon us a severe windstorm, which lasted several minutes, filling the air with thick clouds of dust, twisting limbs from trees, destroying awnings in various localities, tearing off shutters and signs, and in one or two instances blowing off chimney-tops. Mr. Woodson, City Collector, says pay your city taxes. His office will be open until this evening, after which time 10 per cent. will be added.

Vice-President Parsons, of the Richmond and Alleghany railroad, is in the West looking after railroad interests there. He is sentimental order, though the gentleman did "gobble up" in a trice a sandwich pu in his hands for safe-keeping by a little an-tique lady when her back was turned. But she forgives him freely and generously; I

heard ber say so. It was some time past 11 o'clock when we reached Boscobel, and never was there a merrier crowd ascended the hill of that de-lightful place. The owner, Dr. W. T. Walker, and his lovely lady most kindly made us feel "at home," and in a little while fields, hillside, and house were alive with a very lively crowd. The band struck up "the Raquet," and a racket there was, too, very soon, with the laughter of the mr. W. R.
